Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

We live in an age of global revolution. The world around us is raging, in constant movement in different directions. The evolution of the human race is marching towards a powerful spiritual breakthrough. This illuminating book marks the way for us as we move through this change - it is a pointed arrow that lights the way the world must follow, from duality to unity, from separation to love. Ilana Bahat communicates with a spiritual guide who leads her, hand in hand, to an understanding and internalization of the way of One. It is the entity of a great master of light manifested in a body, from the period of Jesus. His name was Rabbi Akiva. Master Akiva was one of the greatest leading lights in the history of man, a teacher of Rabbi Shimon Bar Yochai, author of the Book of Zohar, the foundation of Kabbalah. Here, humanity is given the possibility of choosing a higher truth, to walk the "path of pain" to the "path of love";

the opportunity of unconditional love that connects spirit and matter, and allows for the realization of the vision of peace. Master Akiva speaks via Ilana on the subjects of divinity, truth, couplehood, reincarnation, war and peace, learning, health and energetic purification. He touches on questions of creating reality, abundance, karma, life and death.

This volume represents the proceedings of the 2013 International Conference on Innovation, Communication and Engineering (ICICE 2013). This conference was organized by the China University of Petroleum (Huadong/East China) and the Taiwanese Institute of Knowledge Innovation, and was held in Qingdao, Shandong, P.R. China, October 26 - November 1, 2013. The conference received 653 submitted papers from 10 countries, of which 214 papers were selected by the committees to be presented at ICICE 2013. The conference provided a unified communication platform for researchers in a wide range of fields from information technology, communication science, and applied mathematics, to computer science, advanced material science, design and engineering. This volume enables interdisciplinary collaboration between science and engineering technologists in academia and industry as well as networking internationally. Consists of a book of abstracts (260 pp.) and a USB flash card with full papers (912 pp.).

The Advantage Grammar series helps prepare students to communicate effectively as writers. Students learn how to craft sentences and paragraphs for various purposes and even edit their own work!
