Information graphics is rarely taught in design schools or on-the-job, but sooner or later you may be called on to create a chart or graph to illustrate quantitative data for print, Web or a presentation.

The Wall Street Journal Guide to Information Graphics...

It doesn't go deep into theory or get sidetracked by the history of information graphics. It's a page after page of dos and don'ts and really direct statements about what to do and what not to do. Here's a page to give you an idea: Bottom Line. The Wall Street Journal Guide to Information Graphics is all about fundamentals. So if you're new to data and information graphics, this is a good book to learn from.

Review: The Wall Street Journal Guide to Information Graphics

To be fair to Ms. Dona M. Wong the first two causes of my disappointment with The Wall Street Journal Guide to Information graphics are on me. It is a short book. How many of us check the page count on prospective book buys. The 160 pages are slightly less information dense than they could be because space is used in a way more like an ...
